

The background of the entire image is a deep space scene. At the bottom, the curved horizon of the Earth is visible, showing a thin blue layer of the atmosphere. A bright, glowing light source, likely the sun, is positioned on the left side, creating a large, bright yellow and orange glow that fades into the dark space. A thin, bright orange arc, possibly a satellite or a celestial body, curves across the upper half of the image. The sky is filled with numerous stars and a faint, wispy pattern of the Milky Way galaxy.
